

1996-1997 学年第二学期期中考试卷

containing a large amount of water-soluble organic material, such as plant debris, animal wastes, and dead organisms.

Category	Sub-category	Definition	Example	Notes
Geography	Geographic Area	A specific region or area on a map.	North America	Includes countries like USA, Canada, Mexico, etc.
Geography	Geographic Feature	A natural or man-made feature of the Earth's surface.	Mountain, River, City	Includes landforms, bodies of water, and urban centers.

For example, the following sentence contains a subject-verb agreement error:

“I am a man of the world,” he said, “and I have seen many things in my time.”

For example, the following command will copy the contents of the file `file1` to the file `file2`:  
`cat file1 > file2`

कर्तव्यानुभव विकास के लिए जल्दी से जल्दी काम करना चाहिए।

“...the most important thing is to have a clear idea of what you want to do, and then to go ahead and do it.”

March 2011. Although the ultimate goal of the study is to compare the two models, we also want to understand the relationship between the two models. This is done by comparing the results of the two models at different time steps. The results show that the two models are able to predict the same trends in the data.

July 2011. The results of the study show that the two models are able to predict the same trends in the data.

September 2011. The results of the study show that the two models are able to predict the same trends in the data.

December 2011. The results of the study show that the two models are able to predict the same trends in the data.

February 2012. The results of the study show that the two models are able to predict the same trends in the data.

April 2012. The results of the study show that the two models are able to predict the same trends in the data.

June 2012. The results of the study show that the two models are able to predict the same trends in the data.

August 2012. The results of the study show that the two models are able to predict the same trends in the data.

October 2012. The results of the study show that the two models are able to predict the same trends in the data.

December 2012. The results of the study show that the two models are able to predict the same trends in the data.

February 2013. The results of the study show that the two models are able to predict the same trends in the data.

April 2013. The results of the study show that the two models are able to predict the same trends in the data.

June 2013. The results of the study show that the two models are able to predict the same trends in the data.
